

Exercising can add years to your life. For example I jogged 4 miles today and now I feel like I'm 73.

**I SAID "ALEXA,  
WHAT DO WOMEN  
WANT?"**

**THE THING HASN'T  
SHUT UP FOR  
SEVEN DAYS.**

Doctor: "I'm just waiting  
for your x-ray."

Blonde: "But I've never  
dated anyone name Ray."

Doctor: "And we might do  
a brain scan."

I'm addicted to buying old Beatles records.

Sounds like you need help.

No, I already have that one.

**Someone ripped the  
5th month out of my  
new calendar.**

**I'm dismayed !**

**I'm at the age where  
my mind believes I'm  
29, my humor  
suggests I'm 12, and  
my body possibly died  
in the Civil War**
