Gas prices are irrelevant

DEFENDING THE REPUBLIC
SEP 21

READ IN APP

Monday: September 21, 2026

Dear Patriot,

It is well past time to jettison mousey, timid, mild language. It is time to use our words to identify the way The Left truly is.

Demoncrats are evil.

They hate America ... They hate Christians ... They hate women. ...They hate men ...They hate babies ... They hate Jews. ...They hate President Trump ... They hate real health ... They hate borders ... They hate police ...They hate families ... They hate excellence ... They hate beauty ... They hate the Constitution ... They hate the Founders ... They hate basic education ... They hate the truth ... They hate morality.

You may think you are being kind and understanding when you hold back calling all Demoncrats what they are; but, they are playing you for the fool.

Words mean things.

Evil ... Hate ... Destruction ... Chaos ... Obstruction ... Lying ... Fraud ... Silencing ... Harassment.

These are the words that define today's Demoncrat Party.

They are controlled by historically malevolent ideas and forces: Socialism. Communism. Terrorism. Muslim-ism.

We wish it were not true, but the evidence grows by the hour.

We are fighting a massive war against real evil in the world and the battle is this upcoming election.

You can vote FOR evil by voting FOR Demoncrats... **OR by not voting.**

OR you can vote for a bright, safe, prosperous future.

Hey, we are ALL furious with most Republicans. As horrible as they are, we know how much worse the Demoncrats are. Failure to vote is a vote for their evil.

Vote for every Republican you can. A RINO might vote with President Trump. A Democrat never will.

As with President Trump, we must make each election TOO BIG TO RIG. We must defy the odds, the "experts" and the polls.

Early voting is starting in some states. Vote as early as you can IN PERSON. Do not use any form of mail-in ballots.

Good is still the majority. But, the majority has to vote.

Oh yeah....we get to the shocking addition of a new country and the President kicking some of the worst Fake News out of the White House below.

And much more.

Dig in. Get a subscription (\$5 / month) to help us continue.

Share the truth...the cold, hard, unflinching truth... with all you can.

1- It does not matter how high the gas price is on any given day if you are not safe to walk in public or drive on a highway, or your kids can't roam their neighborhood or sit on the front porch.

If you and your family are not safe in your day to day lives, gas prices are irrelevant.

Oh, we get it. We paid over \$70 for a tank this weekend. It's a lot. But we would pay that daily to keep our grandchildren safe.

The good news is, we don't have to pay, we just have to vote for all Republicans.

Vote for safety.

Safety is the number one CORE issue to consider as we move into voting.

The Trump Administration has a PROVEN method of making all people safe, including and especially minorities in large cities.

The numbers in Memphis continue to astound. This is not a one-off. This is sustained safety.

This model is just one of the many actions to ensure a future that is SAFE.

Demoncrat policies do not work on the most basic level.

Republican policies work, every time they are tried.

The National Pulse

Trump's Memphis Task Force Slashes Crime by Over a Third

QUOTE: One year after President Donald J. Trump created the Memphis Safe Task Force and ordered a federal surge into the city, Memphis has reported a sharp decline in crime. The task force, which brought together more than 30 federal, state, and local agencies, has focused on arrests, outstanding warrants, illegal firearms, narcotics, and gang activity.

Overall crime in Memphis is down nearly 36 percent from the previous year, while murders have fallen 36 percent, sexual assaults 28 percent, motor vehicle thefts 57 percent, robberies 42 percent, shoplifting 44 percent, and aggravated assaults 26 percent. The city is reportedly on pace to record its lowest overall crime level in 25 years.

As of September 15, the task force reported 12,747 arrests, including 131 homicide arrests, 1,363 narcotics arrests, 1,276 firearms arrests, 125 sex-offense arrests, and 1,408 arrests of known gang members.

Authorities also reported recovering 2,160 illegal firearms and locating 189 missing children. The latest declines follow a 28 percent reduction in overall crime in Memphis during 2025, when murders fell 26 percent and the city recorded fewer than 200 killings for the first time since 2019.

Memphis had recorded the nation's highest violent and property crime rates in 2024.

The sustained decline in Memphis crime, alongside thousands of arrests and the removal of illegal firearms, provides the Trump administration with a high-profile example of its federal public-safety strategy producing measurable results.

If the trend continues, Memphis could become a prominent case study in debates over federal involvement in local crime reduction.

2- Eventually this trend means safety, less drug addiction, lower housing prices, less traffic, less time and money spent on removing illegals, less fraud, less strain on city and state budgets.

You can vote for more of this for the next two years, or you vote to go back to thousands of illegals swarming us

That is the choice.

Trump Hits 16-Month Streak of Zero Border Releases

QUOTE: The Trump administration has announced 16 consecutive months of zero releases at the U.S.-Mexico border.

On Wednesday, it was revealed that U.S. Customs and Border Protection (CBP) made zero releases at the border last month. This represents a record low and a decrease from the over 10,000 releases made under the Biden government in August 2024.

CBP apprehended 8,870 migrants at the Southwest border in August, a five percent decrease from July. This also represents a 94 percent decline from the monthly average experienced under former President Joe Biden.

Moreover, drug seizures increased 61 percent compared to the average of last four years. Drug seizures also increased 73 percent compared with the Biden government during the same period. In particular, cocaine seizures increased by 28 percent, and precursor chemical seizures exceeded 120,000 pounds.

This represents a major achievement for the Trump administration, which has put border enforcement and immigration control at the forefront of its policy program. The data draws a sharp contrast with the Biden government, which was widely criticized for its failure to curb illegal crossings of the U.S.-Mexico border.

3- If you are not healthy, you become easier to push around.

The BIGS know it.

Big Pharma, Big Food, Big Ag, Big Fraud, Big Media, Big Education. Big Science.

Great Big Lobbying.

MAHA is fighting hard to turn it all around.

You can vote for a chance to restore a healthy, fertile, vibrant nation.

Or you can vote for Demnocrats.

Hit the link to read this speech in it's entirety.

Here are a few snippets.

The MAHA Report

Trump Issues The Midterms As an Opportunity to Take Back Our Health

From the Dark Forces That Poisoned Us

QUOTE: The MAHA Action president, Tony Lyons, delivered the below remarks on September 16, 2026, at the beginning of his weekly podcast, The MAHA Media Hub.

Today, I want to start with the tragedy that goes beyond our physical health. Big Pharma, Big Food, Big Ag — they took our health from us. But that's not the only tragedy. The real tragedy is that they took something we never even noticed losing: our ability to think for ourselves. Let me explain how we got here.

For a generation, a handful of powerful companies captured the health agencies meant to protect us. They focused almost entirely on infectious diseases, even though those diseases were increasingly under control for decades and because of that chronic disease exploded. It was all about how to make as much money as possible by spreading fear of contagious disease, and manufacturing the science that justified it. And chronic disease grew exponentially— asthma, allergies, autism, ADHD, hypertension, cancer, diabetes, autoimmune diseases, all of it.

That was the record they built and that's a record nobody should be proud of. And the people they rewarded, people like Dr. Fauci, failed year after year and kept getting more money and more power and more fame.

Put it in perspective. Sixty percent of Americans have some form of chronic disease. As Bobby Kennedy says: "a healthy person has a thousand dreams; a sick person has just one — to simply get better."

The media tells you that Bobby Kennedy is 'dangerous.' So let me tell you why he is dangerous, and who he's dangerous to. He's dangerous to all of it. The whole system, the corporate corruption, the captured government agencies, the lies, the propaganda, the censorship; and he's been setting the record straight, delivering MAHA wins and fighting the battle of a lifetime.

Vice President Vance said it best at the Republican [Midterm] Convention last week "I want my son to grow up healthy and strong. I want him to have access to clean water and real food. I want him to live in a country where you don't need a PhD in chemistry to understand the ingredient list in the grocery store. I wanna live in a country where my son's doctors answer to parents and to the Hippocratic Oath, not to a bunch of far left bureaucrats."

The upcoming midterm elections give the American people the opportunity to continue the incredible progress. Candidates like Zach Lahn in Iowa, Ken Paxton in Texas and so many others are the future of MAHA, of our growing coalition to take back our health from the dark forces that have poisoned our children. The MAHA Action PAC is proud to support Zach Lahn's campaign with a \$1 million dollar donation this week because we believe that regenerative farming, freedom and family values are the way to restore our nation's health.

4- It is easy, in retrospect, to say we had no doubt that President Trump would eventually control Greenland when he floated the wild idea 18 months ago.

But, we really didn't doubt it. We have watch this man for long enough to know when he lets an idea drift into the world, it is already thought out and underway.

The deal with Greenland and Denmark is historically monumental.

It may be the pivotal event towards longterm safety for the entire country.

It can not be overstated.

For more on Greenland and how it fits into the world war against evil, listen to this short update from Barbara Boyd at Promethean Action.

Watch here. 14 mins.

5- We have only two words for this one.

About. Time.

The National Pulse

Trump Bars 'Fake News Outlets' CNN, MS NOW, POLITICO From White House Access.

QUOTE: President Donald J. Trump announced a ban on CNN, MS NOW (formerly MSNBC), and POLITICO from the White House, accusing them of spreading "fiction and lies" in their coverage of his administration.

This move will likely lead to legal challenges, with corporate media outlets claiming they have a First Amendment right to White House access.

President Trump has indicated that more "Fake News Media Outlets" will be banned in the near future.

6- The BEST of X

Here are links to short videos, interviews, and information we do not want

you to miss.

- Intrepid and brave Nick Shirley explains why X/Twitter is so important to real journalism.

-Stephen Miller uses words to great effect.

- Vice President Vance explains why growing our food is important to a safe, healthy nation.

- Secretary Kennedy illustrated why change takes more time. (We love his tissue analogy.)

7- Meme of the Day

PRAY for the safety of President Trump and his Cabinet.

PRAY for all children.

PRAY that truth will prevail.

SHARE the truth.
