

**HOW AI FEELS AFTER COMPLETING
ALL YOUR ASSIGNMENTS AND**

**PASSING THE EXAMS,
ONLY TO TAKE YOUR JOB AT THE END**

**WHEN YOU "ACCIDENTALLY" CHOOSE
A DEGREE IN A FIELD THAT ISN'T HIRING**

This little maneuver is gonna cost us 51 years

A picture
of a planet
5 billion
kilometers away

Bank
security
cameras

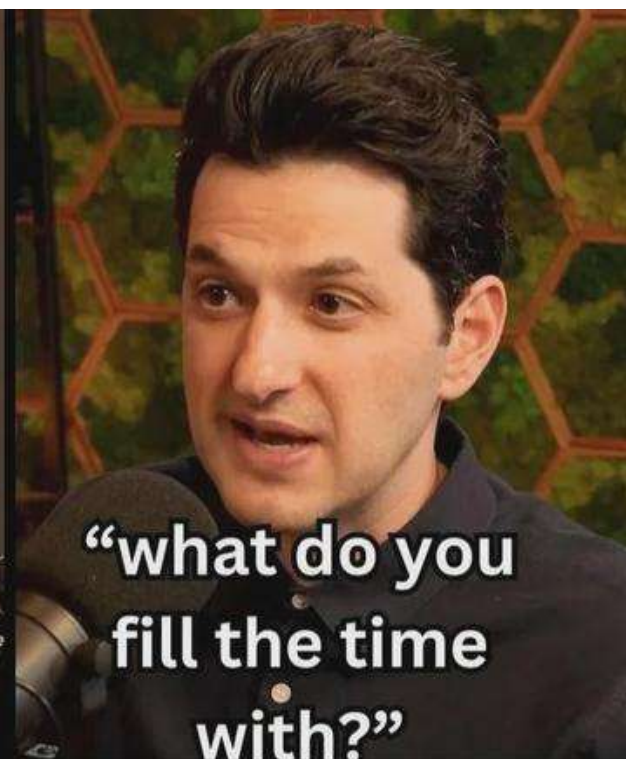

**CEO being the
easiest job for
AI to replace**

**CEO's pushing
for more AI**

I can't go the rest of my life
asking if it's AI or not

Realizing in 20 years I'll probably be up to some boomer stuff like "NO SON OF MINE IS MARRYING AN AI CHATBOT, MARRIAGE IS BETWEEN TWO HUMANS ONLY" and my kids will be like "omg dad you're so robophobic!"
